AIRPLAY MIRRORING YOUR IPAD / IPHONE TO A COMPUTER

Whether you are making a presentation at work or at school, or if you are playing games / music at home, share your iOS screen and apps with others just as you see them, wirelessly. Here's how:

Icon 1: A computer monitor with a red circle containing a white 'M' and two white curved lines above it, with a red arrow pointing down to the monitor.

On your computer, download and run the Mirroring360 software (free download for PC & Mac).

Icon 2: A computer monitor with a red circle containing a white 'M' and two white curved lines on its screen, flanked by two smartphones, each with a red circle containing a white 'M' and two white curved lines.

To start AirPlay mirroring, click the red "I've already setup Mirroring360. Start mirroring now." button and follow instructions.

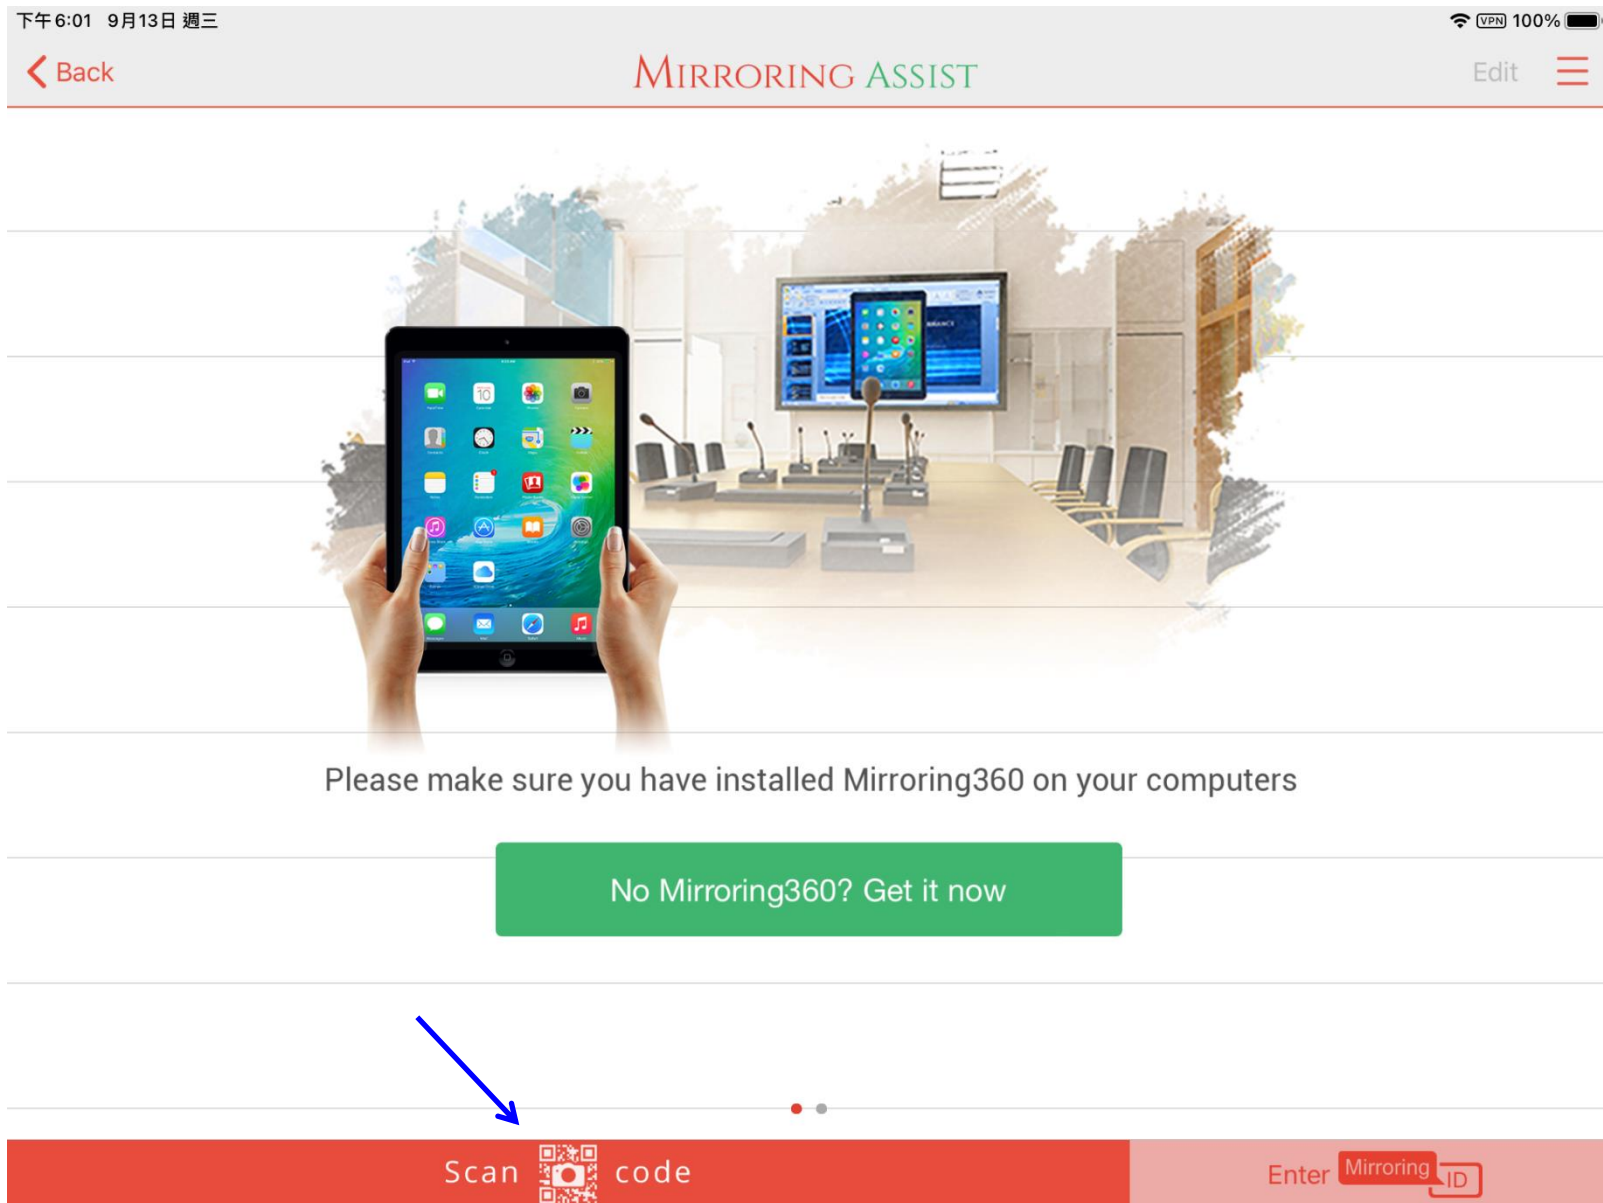

Icon 3: A computer monitor with a red circle containing a white 'M' and two white curved lines on its screen, with two silhouettes of people sitting in front of it.

Enjoy AirPlay mirroring!

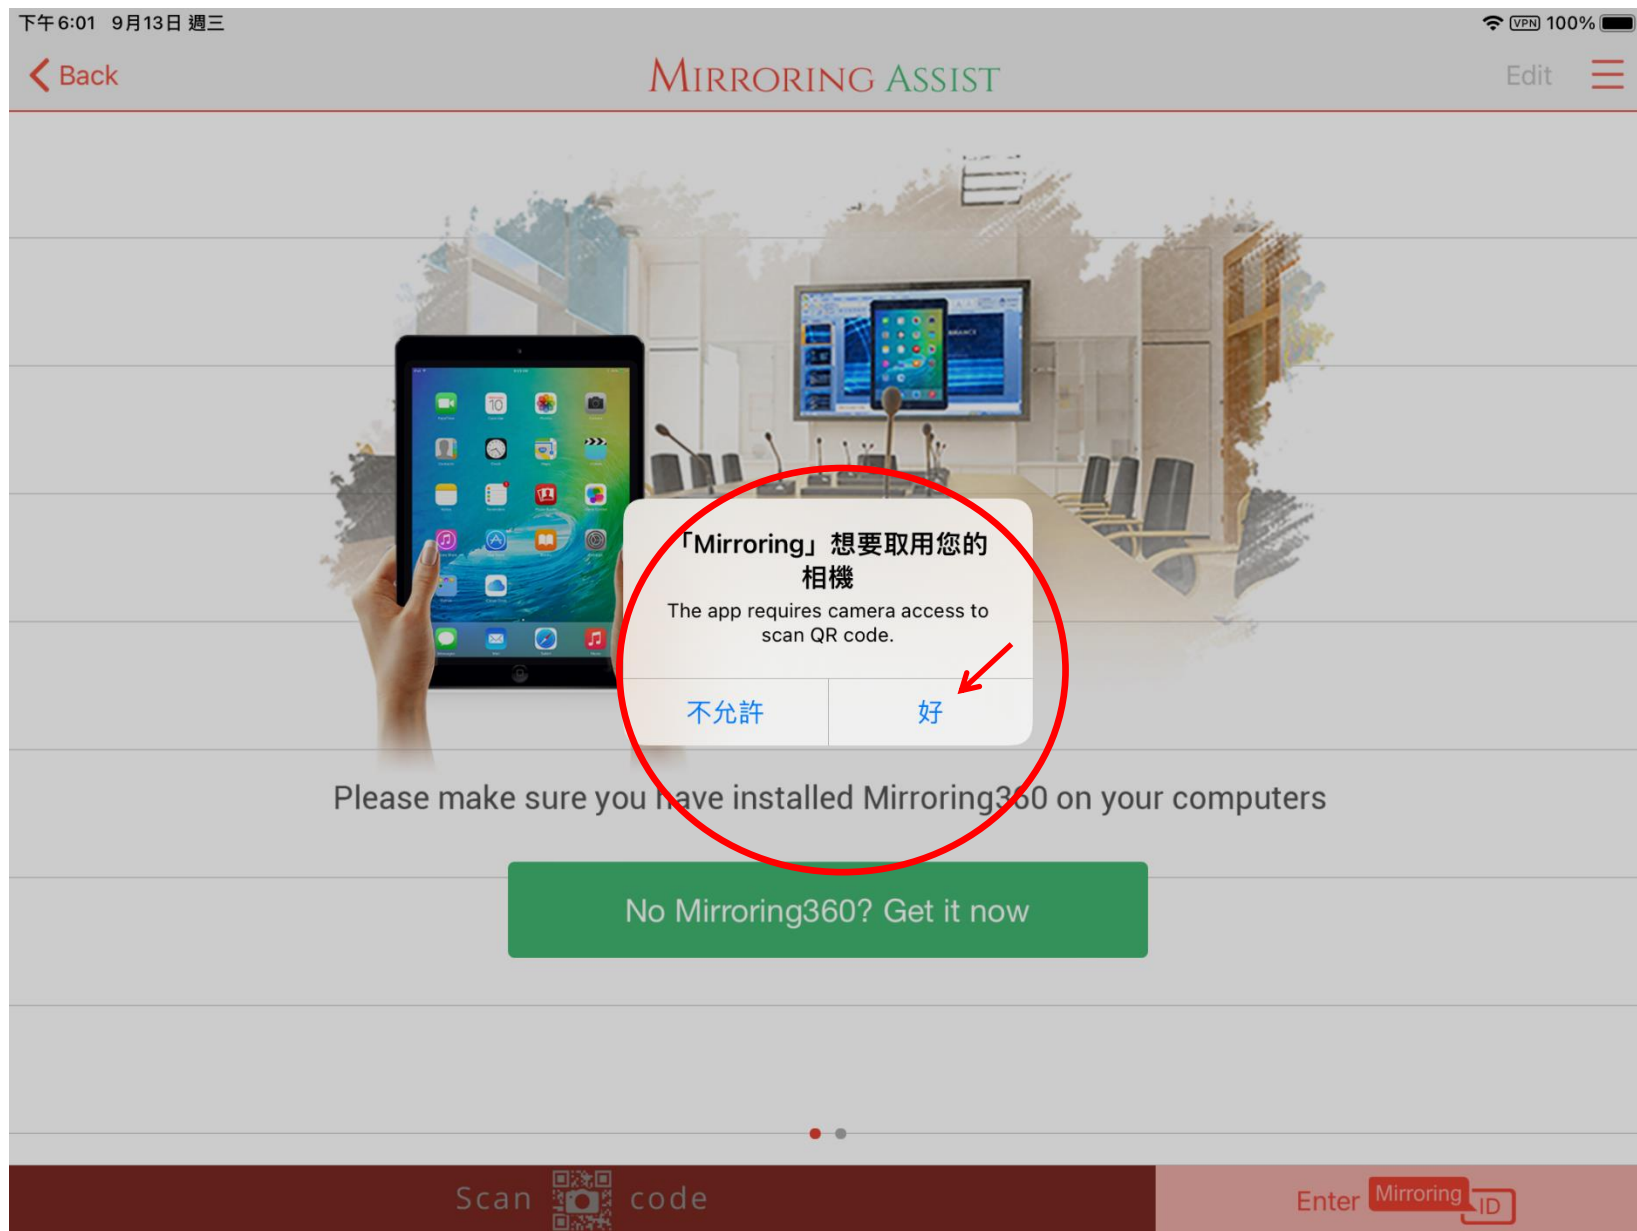

Get Mirroring360 now
